La Biennale gives special impetus to the activities known as Educational:

The goal of the Educational activities is to:

- encourage “direct knowledge” of the art world by the younger generations
- introduce the habit of the “visit to the Biennale” from a very early age as an element of the “family vocabulary” for the newer generations in the city of Venice, the Veneto region and the territory in general
- encourage “creative activity” in schools as an integral part of the education and training of young people

For the 13th International Architecture Exhibition and the International Music and Theatre Festival, our Educational programme has set goals that can make Venice and its territory a true capital of this important area of cultural activity.

Paolo Baratta, President of the Biennale di Venezia

Architecture Biennale 2012, Venice August 29th - November 25th
